Bright Ideas + United Innovative Technologies = Smart Solutions for Today's Maintenance Needs

How do you stay ahead of changing regulations for the products you use?

....Let **SMART SOLVE®** work for you.

While many companies are reformulating products to simply meet changing regulations like volatile organic compound (VOC) restrictions and "green" initiatives, United's new innovative technology in **SMART SOLVE®** is leading the way to provide you with responsible solutions that exceed these requirements. Best yet, the patented **SMART SOLVE®** technology meets performance expectations needed to get the job done right.
