

UNITED 717 ESA Multi-Purpose Industrial Descaler

Featuring Earth Smart® Acid Technology

A versatile descaling product that quickly and safely removes lime, rust, calcium, scale and hard water deposits from a variety of acid-resistant hard surfaces.

Created and Manufactured Exclusively by **UNITED LABORATORIES, INC.**

Features revolutionary Earth Smart® Acid (ESA) Technology:

- Dissolves calcium carbonate scale two to three times faster than phosphoric acid products.
- Much milder to steel, aluminum and skin than traditional acids used in conventional descaling products.
- Phosphate-free and contains no VOCs.

Highly versatile with a multitude of applications, including:

- General-purpose cleaning and descaling of most industrial equipment.
- Cleaning and descaling water meters and filters.
- Cleaning, descaling and removing rust from commercial dishwashing machines and ice makers.
- Removing scale build-up and rust from pots, pans, kettles and coffee pots.
- Cleaning and descaling hospital equipment.
- Removing hard water deposits, scale and rust in steam tables.
- Removing hard water deposits and spots from glasses and dishes.
- Removing milkstone from processing kettles and utensils in dairies.
- Removing hard water deposits, scale and rust from drinking fountains.
