

Stop unwanted obstructions
in sewer lines with...

United 999 **LINE MINER** Foaming Sewer Line Maintainer

- **LINE MINER** attacks and cleans many types of organic obstructions in sewer lines, including those that are caused by vegetation growth.
- **LINE MINER** works in full 360 degrees of internal line; Unique foaming action reaches and cleans entire circumference of pipeline including the top and sides.
- **LINE MINER's** non-caustic formula won't harm sewers, lines or septic systems.
- **LINE MINER** works quickly...often effective within hours.
- **LINE MINER** is an easy-to-use liquid.

Simply pour **LINE MINER** directly into the manhole upstream, above area to be treated. **LINE MINER** will float downstream to obstruction.

When used as part of a regular maintenance program, **LINE MINER** prevents backups and other line damage caused by many types of organic obstructions.
