

GENERAL INFORMATION:

United 53 Defoamer is a concentrated, industrial silicone-based defoamer. Use **United 53 Defoamer** to knock down detergent foam in:

- Wastewater influent
- Wastewater effluent
- Wastewater aeration areas
- Chlorine contact chambers
- Spas, hydrotanks and decorative fountains
- Cooling tower and boiler descaling

United 53 Defoamer is non-corrosive, non-flammable, and non-toxic. **United 53 Defoamer** should **not be used for "chocolate" foam**. **United 637 SOLAR GOLD Slime and Grease Cutter** is recommended for this problem.

DIRECTIONS:

United 53 Defoamer is a concentrate and should be diluted with five to ten parts of water for spray application. Use a pump-up sprayer, such as the **United A062** to apply to small areas. For larger areas, metered pumping equipment is satisfactory. **United 53** can also be dripped into influent wells.

As little as one half of one part per million of **United 53 Defoamer** is frequently sufficient to knock down detergent foam in wastewater aerators, tanks, streams, and holding ponds. To defoam decorative fountain displays that have been "soaped" by vandals, add one gallon of **United 53 Defoamer** per 100 gallons of capacity. This usage level may be adjusted depending on the amount of soap or detergent that has been dumped into the fountain.

PRECAUTIONARY STATEMENTS:

May cause temporary eye irritation. Prolonged or repeated skin contact may cause irritation. May cause gastrointestinal irritation, nausea, diarrhea and vomiting.

FIRST AID MEASURES:

IF IN EYES: Immediately flush with plenty of water for at least 15 minutes while holding eyelids open. If irritation persists, call a physician or poison control center.

IF ON SKIN: Wash with soap and water. If symptoms develop, seek medical attention.

IF INHALED: Remove to fresh air. If symptoms develop, seek medical attention.

IF SWALLOWED: Do not induce vomiting. If conscious, give 2-3 glasses of water to dilute. Never give anything by mouth to an unconscious person. Get medical attention immediately.

An SDS for this product is available on United's website. Please read the SDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
