

**WIN THE BATTLE AGAINST RUST and
save time winning with TRIUMPH!**

STIR THOROUGHLY BEFORE USING.

1. Wirebrush surface to remove all loose flaky rust. Do NOT brush down to bare metal: **TRIUMPH** bonds best to a rusty surface.
2. Wipe away debris with a cloth, paintbrush or air pressure. All grease and oil must be completely removed from the surface. A solution of United 366 IS IDEAL for this purpose. Rinse thoroughly.
3. Stir **TRIUMPH** thoroughly until smooth, even consistency is obtained.
4. Apply **TRIUMPH** with brush or spray. (For spray application, may dilute with up to 20% water.) 0.5 - 1 mil Dry Film Thickness.
5. If a top coat is to be applied use only 1 coat of **United 303**. Apply top coat only after **United 303** has dried completely. (48 hours)
6. If not applying a top coat; 2nd coat of **United 303** must be applied before first coat has dried; within (2 to 4 hours) 2nd coat should be applied at .5 mil dry film thickness.
7. For highly acidic, corrosive or abrasive environments such as strong acid or salt brine, a top coat is recommended. Product information bulletin is available.

**NOT INTENDED FOR
CONSUMER HOUSEHOLD USE.**
